Medical School: Michigan
State University College of
Osteopathic Medicine

*"I chose Metro FM because of the staff, learning opportunities and environment. I was welcomed into the program enthusiastically and with open arms. The preceptors and the residents of the program are willing to help with any questions or concerns that arise. I feel that I am receiving an excellent education that will help mold me into the physician I desire to be. This program truly is a family, and I would pick this program over and over again." - Emily Wohlfeil, DO
PGY 3*

*"I choose to be at the FM program at Metro because of the people. I wanted to surround myself with, and to be the same type of doctor the residents and faculty were when I was an auditioning student." -Gerrit Rauch, DO,
PGY 3*

Hometown: Columbia, TN
Medical School: Chicago
College of Osteopathic
Medicine

“When I did my audition rotation with the program, I loved the environment. All the residents genuinely acted like close friends, and the attendings went above and beyond to teach and be supportive. It really just felt like a big family. Also, the location was a major factor as I have family in the area, and there is always something to do in Grand Rapids.”-
Tyler Ledy, MD, PGY 2

*“Simply put, I think you will have an extremely difficult time finding a friendlier, more supportive, or more family-oriented atmosphere than what is offered by the Metro Family Medicine Residency program. Whether it is the program’s incredible attending physicians, its wonderful program coordinator, its sibling-like co-residents, the amazing medical assistants, or the top-notch clinic office staff, everyone is collectively invested to make you feel supported every step of the way and to ensure you become the best family medicine physician you can possibly be. I am truly thankful to be a part of the Metro Family Medicine Residency. This extraordinary program, its family atmosphere, and the wonderful people I am able to spend my workdays with are truly one of a kind, and what make this program so special. I feel extremely privileged to be part of this program, and could not imagine being anywhere else!”
Devin Schlossberg, DO, PGY 1*
