

## **Family Medicine**

**Program #: 1202500736**

### **\*Interview Day**

Interviews will be held during the months November, December & January. This year, we will be interviewing virtually, via Web Ex. Days and times will be determined.

The interview day consists of meeting with faculty and residents at different times. Due to COVID-19, hospital and clinic tours are not available. However, please visit our residency main page to view the University of Michigan Health-West Residency video.

As a part of the interview process, we are asking the selected candidates to put together a short, 5-10 slide PowerPoint presentation showcasing interesting & standout details about you.

### **\*Applicant Meet & Greet**

All interviewees will be invited to a meet and greet with our residents and faculty virtually. Days and times will be determined. This will also be conducted via WebEX. During this time, you can get to know our House staff in a relaxed setting. More details forthcoming when you receive your invitation.
